-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The expression "the male connector of the sections" in line 2 lacks antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by D'Costa et al. (US Patent No. 5,779,241).

With respect to claim 1, D'Costa discloses a device that could be used with golf (see column 11 lines 28-30) comprising a path (for example the area inside frame 12 is considered as a path), two side walls located on two sides of the path (when referring to Fig. 1A the two vertical elements of frame 12 are considered as the two side walls) of and each side walls having a plurality of first sensors (20A, 20B, 20C as shown on Fig.

1B) on an inside thereof, an end piece having a top board and two side portions (referring to Fig. 1A the top element of frame 12. Please note that the front and side surfaces or the ends wherein the vertical units are intersecting could be considered side surfaces), the end piece mounted across the sides of the path and a plurality of second sensors (20D, 20E as shown in Fig. 1B) located on an underside of the top board (see Fig. 1B), the first sensors in the side walls being electronically connected (11,15,16, 18) to the second sensors of the top board (see Fig. 1B).

With respect to claim 4, the top element of frame 12 with the second sensors as shown in Fig. 1B cover the target area of the path.

With respect to claim 6, the controlling device connects the side portions and electronically connects the first and second sensors (see Fig. 1B).

Allowable Subject Matter

Claims 2 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nini F. Legesse whose telephone number is (571) 272-4412. The examiner can normally be reached on 9:30 AM - 6:30 PM.
